

PERSONIFICATION

Personification is when something that is not human, like a lamp or a pencil, is given the characteristics of a human. It is used in writing and stories to share more vivid details about something.

For example you could describe the wind as being loud. With personification you might say, *the wind stood up and gave a shout. He whistled on his two fingers.*

Give it a try!

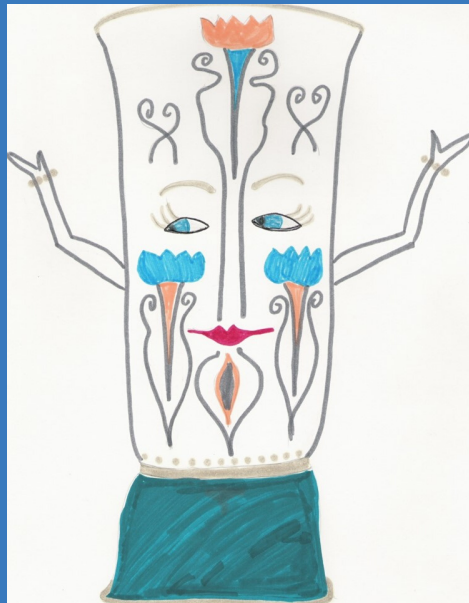

Take a look around your home. Find something that you like or is interesting to look at. This can be a piece of furniture or an item you use every day. Then it's time to get creative with writing!

If my object could talk it would say...

SOME QUESTIONS TO GET YOU STARTED:

- What was this object's "life" like?
- What might it have seen/heard?
- What might it have done?
- What does it like or dislike about its purpose?
- What secrets does it know?

If you're feeling inspired, try drawing your personified object!

**THIS CAN
BECOME THAT!**
